No. 5:16-cv-10444-JEL-MKM

HON. JUDITH E. LEVY

MAG. MONA K. MAJZOUB

EXHIBIT 8

FLINT WATER CASES (FWC) QUALIFIED SETTLEMENT FUND CATEGORIES, MONETARY AWARDS, AND REQUIRED PROOFS GRID (11/11/20)

I. Minor Children (Ages 6 and Younger) Settlement Categories¹

<u>Monetary Awards Explanation</u>	
-	Monetary Award amounts for the minors’ ages 6 and younger Categories are stated as a factor of “x”.
-	The total of all x Categories will be allocated 64.5% of the FWC Qualified Settlement Fund as described in footnote 1.
-	The actual dollar amount for x will be determined by the Claims Administrator after processing all Claims (except for Future Minor Sub-Qualified Settlement Fund Claims), as x is based upon the number of Claimants receiving Monetary Awards in each respective Category.
-	While estimates of Monetary Award amounts based on x may be provided before all Claims are actually processed by the Claims Administrator, they will only be estimates which are subject to a number of variables that cannot be determined until

¹ **Allocations of the FWC Qualified Settlement Fund, subject to the terms of the Settlement Agreement, are shown in the below chart.** Unused funds in the Adult and Property Damage Sub-Qualified Settlement Fund, Business Economic Loss Sub-Qualified Settlement Fund, and Programmatic Relief Sub-Qualified Settlement Fund will revert to the Minor Child, Minor Adolescent, Minor Teen, and Future Minor Sub-Qualified Settlement Funds. **If a Claimant is eligible for more than one personal injury Category, only the highest Monetary Award personal injury Category will be awarded.** The following allocation percentage amounts assume the same relative ratio of Claimant participation in each category. Because the ultimate actual participation rates of Claimants in each category will vary, mathematical adjustments will be made as needed to maintain the same relative percentage amounts reflected in these allocations. In addition, the Monetary Award amounts for minors between ages six, and six years and six months, at the time of first exposure to Flint water will be smoothed out so that, for example, a six year old does not receive a vastly different Monetary Award than a six year and one month old. Examples of both the mathematical adjustments to maintain relative allocation percentages, and the smoothing out of Monetary Awards between ages six and six years and six months (showing a monthly 6% reduction of such awards from the prior month for each of those six months), are attached to this grid.

Minor Children Settlement Categories	79.5% (64.5% for ages ≤ 6 at first exposure; 10% for ages 7-11; 5% for ages 12-17)
Adults and Property Damage Settlement Categories	18% (15% for adults; 3% for property damage)
Business Economic Loss Settlement Category	0.5%
Programmatic Relief Settlement Category	2%

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

all Claims are processed. Therefore, the actual Monetary Awards could vary significantly in amount from prior estimates of such awards.

Definitions

- “First exposure” means the date on which an individual first ingested or came into contact with Flint water.
- “Flint water” means water from the Flint Water Treatment Plant.
- “Resided or dwelled in Flint” means that an individual’s legal residence or location where they regularly slept was in Flint, as reflected on a medical or other reliable record.
- “Were otherwise exposed” means that an individual ingested or came into contact with Flint water.

CATEGORY 1
Minor Child, ages 6 and younger, lead level.

<u>Category Description</u>	<u>Monetary Awards</u>	<u>Required Proofs</u>
<p><u>Lead Level</u> Individuals ages 6 and younger at first exposure who:</p> <p>(1) For at least 21 days during any 30-day period between April 25, 2014 and July 31, 2016;</p> <p>(2) Resided, dwelled, or attended school or day care in Flint, or were otherwise exposed to Flint water; <u>and</u></p> <p>(3) Tested between May 16, 2014 and August 31, 2016 with a blood lead level</p>	<p>2x</p>	<p><u>Blood Lead Test:</u> Venus or capillary blood lead test drawn by a clinical lab that is CLIA (Clinical Laboratory Improvement Amendments) certified or LAMP (Lead and Multi-element Proficiency Program) proficient and taken during the period of May 16, 2014 through August 31, 2016. Qualifying laboratory methods to determine blood lead concentrations include atomic absorption spectrometry (AAS), inductively coupled plasma mass spectrometry (ICP-MS), Graphite Furnace Atomic Absorption Spectrometry</p>

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

<p>(“BLL”) at or above 10.0 mcg/dL; or tested between May 16, 2014, and 90 days after the date of the Preliminary Approval Order, with measurements of in vivo lead quantification in an individual’s bone at or above 10.0 ug/G.</p>		<p>(GFAAS), Atomic Spectroscopy (AS), and Anodic Stripping Voltammetry (ASV).</p> <p>Bone Lead Test: Test with an X-Ray fluorescence (XRF) device optimized to measure bone lead in vivo in humans and to perform measurements of in vivo bone lead in bones. Test must have been taken between May 16, 2014, and 90 days after the date of the Preliminary Approval Order, except that the end date of 90 days after the date of the Preliminary Approval Order shall not be applied to Future Minor Claimants, who shall not be subject to that end date restriction. XRF bone test results must be signed and verified as properly calibrated, reliable and accurate by a board-certified PhD and/or M.D. qualified to do so in the appropriate fields of study.</p> <p>If any of the above-described blood or bone lead level test results for a particular individual are stated by the reporting testing entity as “less than” a numerical value (i.e., 3.0, 5.0, 10.0), then such result shall be treated as a lead level result of that numerical value. For example, a test result reported as “less than 3.0” or “<3.0” shall be treated as a lead level of 3.0.</p>

IV. Adult Settlement Categories

<u>Monetary Awards Explanation</u>
<ul style="list-style-type: none"> - Monetary Award amounts for adult and women miscarriage Categories are stated as a factor of “AX” or in actual dollar amounts. - The total of all adult and women miscarriage Categories will be allocated 15% of the FWC Qualified Settlement Fund as described in footnote 1.

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

- The actual dollar amount for AX will be determined by the Claims Administrator after processing all Claims (except for Future Minor Sub-Qualified Settlement Fund Claims), as AX is based in part upon the number of Claimants receiving Monetary Awards in each respective Category.
- While estimates of Monetary Award amounts based on AX may be provided before all Claims are actually processed by the Claims Administrator, they will only be estimates which are subject to a number of variables that cannot be determined until all Claims are processed. Therefore, the actual Monetary Awards could vary significantly in amount from prior estimates of such awards.

---	--	--

V. Property Damage and Business Economic Loss Categories

Residential Property Damage Category Monetary Awards Explanation

- Only one award per owned or leased parcel of residential real property. No recovery shall exceed \$1,000 per parcel of residential real property. If the owner or lessee of such parcel of property changed during the period of April 25, 2014 through July 31, 2016, and as a result there is more than one Claimant for such parcel, then one PX award will be split pro rata by all who were owners or lessees during the period April 25, 2014 through July 31, 2016.
- The Monetary Award amount for the Residential Property Damage Category is stated as “PX”.
- The total PX Category will be allocated 3% of the FWC Qualified Settlement Fund as described in footnote 1.
- The actual dollar amount for PX will be determined by the Claims Administrator after processing all Claims (except for Future Minor Sub-Qualified Settlement Fund Claims), as PX is based in part upon the number of Claimants receiving Monetary Awards in this Category, subject to the cap that no recovery in this Category shall exceed \$1,000 per parcel of residential real property.
- While estimates of Monetary Award amounts based on PX may be provided before all Claims are actually processed by the Claims Administrator, they will only be estimates which are subject to a number of variables that cannot be determined until

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

all Claims are processed. Therefore, the actual Monetary Awards could vary significantly in amount from prior estimates of such awards.

CATEGORY 28
Residential Property Damage

<u>Category Description</u>	<u>Monetary Awards</u>	<u>Required Proofs</u>
<p><u>Owner of Residential/Residence, Lessee of Residential/Residence, Decrease in Residential Property Value, Harm to Pipes or Property in Residence</u></p> <p>All individuals who owned or who were the lessee of a parcel of residential real property in the City of Flint, and where that residential property received Flint water on or between April 25, 2014 and July 31, 2016. This Category does not include owners who also rented out or otherwise earned income from their residential real property, since Category 29 addresses that situation.</p>	<p>PX</p>	<p><u>Proof of Ownership or Lease:</u> Copy of any document showing proof of residential real property ownership or of being a residential lessee in the City of Flint during the period of April 25, 2014 to July 31, 2016, as well as that the property was receiving Flint water, including, but not limited to, a water bill, deed, housing contract, mortgage statement, lease, property or income tax statement. Claim form will require identification of all owners, lessees, and other interested parties in the real property, so that the proper legal recipient can receive the award.</p>

Business Property Damage Category Monetary Awards Explanation

- Only one award per business, or parcel of real property. No recovery shall exceed \$5,000 per business, or parcel of real property. If the owner of such parcel of real property changed during the period of April 25, 2014 through July 31, 2016, and

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

as a result there is more than one Claimant for such parcel, then one BX award will be split pro rata by all who were owners during the period April 25, 2014 through July 31, 2016.

- The Monetary Award amounts for the Business Property Damage and Business Economic Loss Categories are stated as “BX”.
- The combined total of both BX Categories will be allocated 0.5% of the FWC Qualified Settlement Fund as described in footnote 1.
- The actual dollar amount for BX will be based upon each Claimant’s submission of proof of their business damages, and will be determined by the Claims Administrator after processing all Claims (except for Future Minor Sub-Qualified Settlement Fund Claims), as BX may also be based in part upon the number of Claimants receiving Monetary Awards in the BX Categories, subject to the cap that no recovery in the BX Categories shall exceed \$5,000 per business, or parcel of real property, as the case may be.
- If the total amount of valid claims in the BX Categories exceeds the allocated 0.5% of the FWC Qualified Settlement Fund as described in footnote 1, then the BX Categories will be paid out on a pro rata basis of that 0.5% allocation. However, in that event, if the average payout in the BX Categories is under \$100 per Claimant, then the Claims Administrator will not pay any Monetary Awards under \$100 in such BX Categories, and no Claimant shall be entitled to any such award under \$100. Any Monetary Award in the BX Categories that was under \$100 shall be treated as a value of zero. The Claims Administrator will then recalculate the Monetary Awards in the BX Categories without considering any such zero value awards.
- While estimates of Monetary Award amounts based on BX may be provided before all Claims are actually processed by the Claims Administrator, they will only be estimates which are subject to a number of variables that cannot be determined until all Claims are processed. Therefore, the actual Monetary Awards could vary significantly in amount from prior estimates of such awards.

CATEGORY 29
Business Property Damage

<u>Category Description</u>	<u>Monetary Awards</u>	<u>Required Proofs</u>
<u>Business Property Damage</u>	BX	<u>Proof of Business and Property Ownership: Copy of any document</u>

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

<p>All nonfarm businesses that owned and earned income from real property in the City of Flint, and where such real property received Flint water, on or between April 25, 2014 and July 31, 2016.</p>		<p>showing proof of business and real property ownership in the City of Flint, and such property receiving Flint water, during the period of April 25, 2014 through July 31, 2016, including, but not limited to, a water bill, deed, housing contract, mortgage statement, property or income tax statement, lease, tax registration, state filing, certificate of incorporation, or any document that the Claims Administrator deems sufficient. Claim form will require identification of all business owners and other interested parties in the real property, so that the proper legal recipient can receive the award.</p> <p><u>Proof of Damages:</u> Proof of damages shall be measured by loss of net profits year over year as reflected in tax filings. Claimants shall complete a Business Interruption Claim Form to be submitted as an attachment to the Claim Form.</p>
--	--	---

Business Economic Loss Category Monetary Awards Explanation

- Only one award per business. No recovery shall exceed \$5,000 per business.
- The Monetary Award amounts for the Business Property Damage and Business Economic Loss Categories are stated as “BX”.
- The combined total of both BX Categories will be allocated 0.5% of the FWC Qualified Settlement Fund as described in footnote 1.

Flint Water Cases (FWC) Qualified Settlement Fund Categories, Monetary Awards, and Required Proofs Grid, 11/11/20

- The actual dollar amount for BX will be based upon each Claimant’s submission of proof of their business damages, and will be determined by the Claims Administrator after processing all Claims (except for Future Minor Sub-Qualified Settlement Fund Claims), as BX may also be based in part upon the number of Claimants receiving Monetary Awards in the BX Categories, subject to the cap that no recovery in the BX Categories shall exceed \$5,000 per business, or parcel of real property, as the case may be.
- If the total amount of valid claims in the BX Categories exceeds the allocated 0.5% of the FWC Qualified Settlement Fund as described in footnote 1, then the BX Categories will be paid out on a pro rata basis of that 0.5% allocation. However, in that event, if the average payout in the BX Categories is under \$100 per Claimant, then the Claims Administrator will not pay any Monetary Awards under \$100 in such BX Categories, and no Claimant shall be entitled to any such award under \$100. Any Monetary Award in the BX Categories that was under \$100 shall be treated as a value of zero. The Claims Administrator will then recalculate the Monetary Awards in the BX Categories without considering any such zero value awards.
- While estimates of Monetary Award amounts based on BX may be provided before all Claims are actually processed by the Claims Administrator, they will only be estimates which are subject to a number of variables that cannot be determined until all Claims are processed. Therefore, the actual Monetary Awards could vary significantly in amount from prior estimates of such awards.

CATEGORY 30
Business Economic Loss

<u>Category Description</u>	<u>Monetary Awards</u>	<u>Required Proofs</u>
<p><u>Business Economic Loss</u> All nonfarm and non-real property businesses that operated in the City of Flint, and that received Flint water, on or between April 25, 2014 and July 31, 2016.</p>	<p>BX</p>	<p><u>Proof of Business Ownership:</u> Copy of any document showing proof of business incorporation or organization, and business ownership operating in the City of Flint, and receiving Flint water, during the period of April 25, 2014 to July 31, 2016, including, but not limited to, a water bill, property or income tax statement, tax registration, state filing, certificate of</p>

EXHIBIT 8.1

Adult Legionnaires’/Personal Injury Claimants (Category 27A) (Available Only to Support a Reconsideration Request)

AFFIDAVIT OF _____

I, _____, declare as follows:

I am over the age of eighteen, understand the obligations of an oath, and have personal knowledge of the facts stated in this affidavit. If called as a witness, I could and would testify competently hereto.

1. I am a physician currently licensed to practice in _____.
2. I am currently Board Certified in (Internal Medicine) (Infectious Disease) (Pulmonary Critical Care) (Forensic Pathology).
3. In preparation for this affidavit, I reviewed a number of materials, including medical records of _____ (Claimant) dated between April 25, 2014 and December 31, 2018.

Records Reviewed

<u>Name of Institution or Healthcare Provider</u>	<u>Date(s) of Service</u>

4. Relying on the information obtained from the above-referenced medical records, as well as my education, training, professional experience and knowledge of the medical literature, I formulated the opinion to a reasonable degree of probability that _____ (Claimant), between April 25, 2014 and December 31, 2018:

- a. Was exposed to Flint water; **and**
- b. Contracted Legionnaires’ disease, not causing death; **and**
- c. Was eighteen (18) years of age or older at the time of the exposure that resulted in the infection.

I solemnly affirm under the penalties of perjury that the contents of the foregoing paper are true and correct, executed on this _____ day of _____, 2021 by _____.

EXHIBIT 8.2

Exhibit to Grid for Mathematical Adjustments to Maintain Relative Allocation Percentages in Footnote One of the Grid

The objective is to, if necessary, provide for an adjustment that uses the ultimate values of “X, Y, Z, AX, PX, and BX” in the grid, that will maintain the overall relative allocation relationships to the percentages listed in footnote one of the grid. This cannot be calculated with any reliability until the Claimants have submitted Claims and they have all been processed by the Claims Administrator.

At that time, the Claims Administrator will determine if any adjustment is ultimately needed to retain the relative allocation percentages in footnote one of the grid. If an adjustment is necessary, the Claims Administrator shall work with the parties and the Special Master to all agree on an appropriate adjustment. In that event, the parties will prepare a recommendation to the court for any adjustment to be approved. The parties are confident that if it becomes necessary to make any such adjustment, they will be able to agree upon one.

EXHIBIT 8.3

Exhibit
Calculation of Monetary Awards for Children Between 6 and 6 and a Half Years at First Exposure
(Example based on *Hypothetical* Claim Values for Categories 1 - 7)

Children who were over six years old by six months or less at the time of first exposure to Flint water will have their awards calculated as a percentage of the award amounts for children six years old or under. This will be done by applying, for each month over six years old, a six percent reduction in the award amount that would be given to a child one month younger. For example, if a child who was 6 or younger would be paid \$10,000, then a child who was six years and one month would be paid \$10,000 minus \$600 (6% of \$10,000) for a total of \$9,400, and a child who was six years and two months old would be paid \$9,400 minus \$564 (6% of \$9,400) for a total of \$8,836.

The following chart provides examples of how such awards for children between six and six months old at first exposure would be calculated based on hypothetical claim awards for those six and under. Note that the dollar amounts shown here are NOT actual award amounts, but are only provided as examples to demonstrate how awards will be calculated for children who were between six and six years and six months old at the time of first exposure.

Category for 6 and Under	6 and Under	6 & 1mo	6 & 2mo	6 & 3mo	6 & 4mo	6 & 5mo	6 & 6mo
Category 1	\$20,000	\$18,800	\$17,672	\$16,612	\$15,615	\$14,678	\$13,797
Category 2	\$15,000	\$14,100	\$13,254	\$12,459	\$11,711	\$11,009	\$10,348
Category 3	\$10,000	\$9,400	\$8,836	\$8,306	\$7,807	\$7,339	\$6,899
Category 4	\$5,000	\$4,700	\$4,418	\$4,153	\$3,904	\$3,670	\$3,449
Category 5	\$2,000	\$1,880	\$1,767	\$1,661	\$1,561	\$1,468	\$1,380
Category 6	\$1,500	\$1,410	\$1,325	\$1,246	\$1,171	\$1,101	\$1,035
Category 7	\$1,000	\$940	\$884	\$831	\$781	\$734	\$690
